Unless otherwise noted, the maps, tables, and graphs on pages 1-195 have been created by World Eagle, A Division of Independent Broadcasting Associates, Inc. The base map used most frequently is United Nations Map 3041 Rev 1 & 2, used here with permission.

The 54 individual country maps on pages 199-252 are, for the most part, reprints of maps published by the United Nations (with permission), the U.S. Department of State, or the U.S. Central Intelligence Agency. A few of the maps are reprints from 1983 to 1989 issues of *The Courier* (Africa-Caribbean-Pacific --European Community). Some of the maps were originally printed in color; our reprints of them are the best achievable in black and white. The statistical data and the comparative map, and, in most cases, the position map also, at the bottom of each country map page have been supplied by our editors.
